			·
			*
5. With regard to the abstract,			
the text is approved as submit		Authority as	s it appears in Box No. IV. The applicant
			report, submit comments to this Authority.
	the date of maning of this internati	onar scarcii i	report, submit commone to and remaining
6. With regard to the drawings,		NT-	22
a. the figure of the <b>drawings</b> to be p		No	
as suggested by the app			
because the applicant fa			
·	er characterizes the invention.		
b. none of the figure is to be pu	ionsned with the abstract.		

#### INTERNATIONAL SEARCH REPORT

International application No. PCT/KR2005/000888

Box No. I Nucleotide and/or amino acid sequence(s) (Continuation of item1.b of the first sheet) 1. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, the international search was carried out on the basis of: a. type of material a sequence listing table(s) related to the sequence listing b. format of material in written format in computer readable form c. time of filing/furnishing contained in the international application as filed filed together with the international application in computer readable form furnished subsequently to this Authority for the purposes of search In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished. 3. Additional comments:

International application No. PCT/KR2005/000888

#### A. CLASSIFICATION OF SUBJECT MATTER

### IPC7 C07K 14/435, C12N 15/12

According to International Patent Classification (IPC) or to both national classification and IPC

#### B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC 7: C07K, C12N

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the intertnational search (name of data base and, where practicable, search terms used) PubMed, NCBI, Delphion, eKIPASS

## C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.

See patent family annex.

- \* Special categories of cited documents:
- "A" document defining the general state of the art which is not considered to be of particular relevance
- "E" earlier application or patent but published on or after the international filing date
- "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of citation or other special reason (as specified)
- "O" document referring to an oral disclosure, use, exhibition or other
- "P" document published prior to the international filing date but later than the priority date claimed
- "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
- "&" document member of the same patent family

Date of the actual completion of the international search
21 JULY 2005 (21.07.2005)

Date of mailing of the international search report

22 JULY 2005 (22.07.2005)
